

Adjusted EPS, adjusted net income, gross profit, core G&A and EBITDA are non-GAAP financial measures. Management believes that presenting certain non-GAAP financial measures by excluding or including certain items can be helpful to investors and analysts who may wish to use this information to analyze the Company's current performance, prospects and valuation. Management uses this non-GAAP information internally to evaluate operating performance and in formulating the budget for future periods. Management believes that the non-GAAP financial measures and metrics discussed below are appropriate for evaluating the performance of the Company.

Gross profit is calculated as total revenue less advisory and commission expense; brokerage, clearing and exchange expense; and market fluctuations on employee deferred compensation. All other expense categories, including depreciation and amortization of property and equipment and amortization of other intangibles, are considered general and administrative in nature. Because the Company's gross profit amounts do not include any depreciation and amortization expense, the Company considers gross profit to be a non-GAAP financial measure that may not be comparable to similar measures used by others in its industry. Management believes that gross profit can provide investors with useful insight into the Company's core operating performance before indirect costs that are general and administrative in nature. For a calculation of gross profit, please see page 3 of this presentation.

Adjusted EPS is defined as adjusted net income, a non-GAAP measure defined as net income plus the after-tax impact of amortization of other intangibles and acquisition costs, divided by the weighted average number of diluted shares outstanding for the applicable period. The Company presents adjusted net income and adjusted EPS because management believes that these metrics can provide investors with useful insight into the Company's core operating performance by excluding non-cash items and acquisition costs that management does not believe impact the Company's ongoing operations. Adjusted net income and adjusted EPS are not measures of the Company's financial performance under GAAP and should not be considered as alternatives to net income, earnings per diluted share or any other performance measure derived in accordance with GAAP. For a reconciliation of net income and earnings per diluted share to adjusted net income and adjusted EPS, please see page 3 of this presentation.

Core G&A consists of total expense less the following expenses: advisory and commission; depreciation and amortization; interest expense on borrowings; brokerage, clearing and exchange; amortization of other intangibles; market fluctuations on employee deferred compensation; loss on extinguishment of debt; promotional (ongoing); acquisition costs; employee share-based compensation; and regulatory charges. Management presents core G&A because it believes core G&A reflects the corporate expense categories over which management can generally exercise a measure of control, compared with expense items over which management either cannot exercise control, such as advisory and commission, or which management views as promotional expense necessary to support advisor growth and retention, including conferences and transition assistance. Core G&A is not a measure of the Company's total expense to core G&A, please see page 3 of this presentation. The Company does not provide an outlook for its total expense because it contains expense components, such as advisory and commission, that are market-driven and over which the Company cannot exercise control. Accordingly a reconciliation of the Company's outlook for total expense to an outlook for core G&A cannot be made available without unreasonable effort.

EBITDA is defined as net income plus interest expense on borrowings, provision for income taxes, depreciation and amortization, and amortization of other intangibles. The Company presents EBITDA because management believes that it can be a useful financial metric in understanding the Company's earnings from operations. EBITDA is not a measure of the Company's financial performance under GAAP and should not be considered as an alternative to net income or any other performance measure derived in accordance with GAAP. For a reconciliation of net income to EBITDA, please see page 2.

Endnotes

- (1) During the first quarter of 2023, the Company updated its presentation of employee deferred compensation to be consistent with its presentation of advisor deferred compensation. As a result, gains or losses related to market fluctuations on advisor and employee deferred compensation plans are presented in the same line item as the related increase or decrease in compensation expense for purposes of Management's Statements of Operations. This change has not been applied retroactively as the impact on prior periods was not material.
- (2) Consists of total advisory and brokerage assets under custody at the Company's broker-dealer subsidiary, LPL Financial LLC ("LPL Financial"), and Waddell & Reed, LLC ("Waddell & Reed").
- (3) Consists of advisory assets in LPL Financial's Model Wealth Portfolios, Optimum Market Portfolios, Personal Wealth Portfolios and Guided Wealth Portfolios platforms.
- (4) Assets on the Company's corporate advisory platform are serviced by investment advisor representatives of LPL Financial or Allen & Company of Florida, LLC. Assets on the Company's independent RIA advisory platform are serviced by investment advisor representatives of separate registered investment advisor firms rather than representatives of LPL Financial.
- (5) Consists of total client deposits into advisory or brokerage accounts less total client withdrawals from advisory or brokerage accounts, plus dividends, plus interest, minus advisory fees. The Company considers conversions from and to brokerage or advisory accounts as deposits and withdrawals, respectively.
- (6) Total net new assets includes acquired net new assets.
- (7) Consists of existing custodied accounts that converted from brokerage to advisory, less existing custodied assets that converted from advisory to brokerage.
- (8) During the second quarter of 2022, the Company updated its definition of client cash balances to include client cash accounts and exclude purchased money market funds. Client cash accounts include cash that clients have deposited with LPL Financial that is included in client payables in the condensed consolidated balance sheets. Prior period disclosures have been updated to reflect this change as applicable. The following table presents purchased money market fund balances for the periods presented:

| (End of period \$ in billions) | Q2 2023 | Q1 2023 | Q4 2022 | Q3 2022 | Q2 2022 | Q1 2022 | Q4 2021 | Q3 2021 | Q2 2021 |
|--------------------------------|---------|---------|---------|---------|---------|---------|---------|---------|---------|
| Purchased Money Market Funds | 20.0 | 15.0 | 8.8 | 4.2 | 1.9 | 1.6 | 1.9 | 1.8 | 1.7 |

- (9) Represents the amount of securities purchased less the amount of securities sold in client accounts custodied with LPL Financial.
- (10) Refers to active subscriptions related to professional services offerings (CFO Solutions, Marketing Solutions, Advisor Institute, Bookkeeping and Partial Book Sales) and business optimizer offerings (M&A Solutions, Digital Office, Resilience Plans and Assurance Plans), as well as planning and advice services (Paraplanning and Tax Planning) for which subscriptions are the number of advisors using the service.
- (11) Reflects retention of total advisory and brokerage assets, calculated by deducting quarterly annualized attrition from total advisory and brokerage assets, divided by the prior-quarter total advisory and brokerage assets.
