LPL FINANCIAL LLC
NOTES TO THE FINANCIAL STATEMENT

1. Organization and Description of the Company

LPL Financial LLC ("LPL Financial" or the "Company") provides an integrated platform of brokerage and investment advisory services to independent financial advisors and financial advisors at financial institutions (collectively "advisors") in the United States of America. Through its custody and clearing platform, using both proprietary and third-party technology, the Company provides access to diversified financial products and services enabling its advisors to offer independent financial advice and brokerage services to retail investors (their "clients"). LPL Financial is a wholly owned subsidiary of LPL Holdings, Inc. ("LPLH"), a Massachusetts holding corporation, which is a wholly owned subsidiary of LPL Financial Holdings Inc. ("LPLFH"), a Delaware holding corporation.

LPL Financial is a clearing broker-dealer registered with the Financial Industry Regulatory Authority ("FINRA") and the Securities and Exchange Commission ("SEC") pursuant to the Securities Exchange Act of 1934 and an investment adviser registered with the SEC pursuant to the Investment Advisers Act of 1940 with primary offices in Boston, Charlotte, and San Diego. The Company is registered as an introducing broker-dealer with the Commodity Futures Trading Commission ("CFTC") and is a member of the National Futures Association ("NFA"). LPL Financial introduces commodities and futures products to ADM Investor Services Inc. ("ADM"), and all commodities accounts and related positions are held by ADM. LPL Financial is regulated by the CFTC and NFA.

2. Summary of Significant Accounting Policies

Basis of Presentation

This financial statement is prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"), which require the Company to make estimates and assumptions regarding the valuation of certain financial instruments, intangible assets, allowance for doubtful accounts, accruals for liabilities, income taxes, revenue and expense accruals, and other matters that affect the financial statement and related disclosures. Actual results could differ materially from those estimates under different assumptions or conditions and the difference may be material to the financial statement. The Company has evaluated subsequent events up to and including the date this financial statement was issued.

Cash and Cash Equivalents

Cash equivalents are highly liquid investments with an original maturity of 90 days or less that are not required to be segregated under federal or other regulations. The Company's cash and cash equivalents are composed of interest and noninterest-bearing deposits, money market funds, and U.S. government obligations.

Cash and Securities Segregated Under Federal and Other Regulations

As a broker-dealer carrying client accounts, the Company is subject to requirements related to maintaining cash or qualified securities in a segregated reserve account for the exclusive benefit of its clients in accordance with Rule 15c3-3 of the Security Exchange Act of 1934, as amended, and other regulations. Held within this account is approximately \$100,000 for the proprietary accounts of introducing brokers.

Restricted Cash

Restricted cash represents escrow deposits.

Use of Estimates

The preparation of the financial statement in conformity with GAAP requires the Company to make estimates and judgments that affect the reported amounts of assets and liabilities and related disclosures of contingent assets and liabilities. These estimates are based on the information that is currently available and on various other assumptions that the Company believes to be reasonable under the circumstances. Actual results could vary from these estimates.

Fair Value of Financial Instruments

The Company's financial assets and liabilities are carried at fair value or at amounts that, because of their short-term nature, approximate fair value.

LPL FINANCIAL LLC
NOTES TO THE FINANCIAL STATEMENT

Receivables from and Payables to Clients

Receivables from clients include amounts due on cash and margin transactions. The Company extends credit to its advisors' clients to finance their purchases of securities on margin and receives income from interest charged on such extensions of credit. Payables to clients represent credit balances in client accounts arising from deposits of funds, proceeds from sales of securities, and dividend and interest payments received on securities held in client accounts. At June 30, 2016, \$768.9 million of the balance represents free credit balances that are held pending re-investment by the clients. The Company pays interest on certain client payable balances.

To the extent that margin loans and other receivables from clients are not fully collateralized by client securities, management establishes an allowance that it believes is sufficient to cover any probable losses. When establishing this allowance, management considers a number of factors, including its ability to collect from the client or the client's financial advisor and the Company's historical experience in collecting on such transactions.

The following schedule reflects the Company's activity in providing for an allowance for uncollectible amounts due from clients for the six months ended June 30, 2016 (in thousands):

Beginning Balance — January 1	\$ 1,464
Provision for bad debts	165
Ending Balance — June 30	<u>\$ 1,629</u>

Advisor Loans

The Company periodically extends credit to its advisors in the form of recruiting and other loans. The decisions to extend credit to advisors are generally based on the advisor's credit history and their ability to generate future commissions. Certain loans made in connection with recruiting are forgivable over terms ranging from three to eight years provided that the advisor remains licensed through LPL Financial. At June 30, 2016, \$104.1 million of the advisor loan balance was forgivable. Management maintains an allowance for doubtful amounts using an aging analysis that takes into account the advisor's registration status and the specific type of receivable. The aging thresholds and specific percentages used represent management's best estimates of probable losses. Management monitors the adequacy of these estimates through periodic evaluations against actual trends experienced. The allowance for doubtful accounts was \$0.7 million as of June 30, 2016.

Receivables from Others

Receivables from others primarily consist of accrued fees from product sponsors and amounts due from advisors. Management maintains an allowance for uncollectible amounts using an aging analysis that takes into account the specific type of receivable. The aging thresholds and specific percentages used represent management's best estimates of probable losses. Management monitors the adequacy of these estimates through periodic evaluations against actual trends experienced.

The following schedule reflects the Company's activity in providing for an allowance for uncollectible amounts due from others for the six months ended June 30, 2016 (in thousands):

Beginning Balance — January 1	\$ 9,802
Provision for bad debts	1,912
Charge-offs, net of recoveries	418
Ending Balance — June 30	<u>\$ 12,132</u>

Securities Owned and Securities Sold, But Not Yet Purchased

Securities owned and securities sold, but not yet purchased include trading securities, which are carried at fair value. The Company uses prices obtained from independent third-party pricing services to measure the fair value of its trading securities. Prices received from the pricing services are validated using various methods, including comparison to prices received from additional pricing services, comparison to available quoted market prices, and review of other relevant market data including implied yields of major categories of securities. In general, these quoted prices are derived from active markets for identical assets or liabilities. When quoted prices in active markets for identical assets and liabilities are not available, the quoted prices are based on similar assets and liabilities or inputs other than the quoted prices that are observable, either directly or indirectly. For certificates

LPL FINANCIAL LLC
NOTES TO THE FINANCIAL STATEMENT

of deposit and treasury securities, the Company utilizes market-based inputs including observable market interest rates that correspond to the remaining maturities or the next interest reset dates. At June 30, 2016, the Company did not adjust prices received from the independent third-party pricing services.

Securities Borrowed

The Company borrows securities from other broker-dealers to make deliveries or to facilitate customer short sales. Securities borrowed are accounted for as collateralized financings and are recorded at contract value, representing the amount of cash provided for securities borrowed transactions (generally in excess of market values). The adequacy of the collateral deposited for securities borrowed is continuously monitored and adjusted when considered necessary to minimize the risk associated with this activity. As of June 30, 2016, the contract and collateral market value of borrowed securities was \$14.1 million and \$13.8 million, respectively.

Fixed Assets

Internally developed software, computers and software, leasehold improvements, and furniture and equipment are recorded at historical cost, net of accumulated depreciation and amortization. Depreciation and amortization are recognized using the straight-line method over the estimated useful lives of the assets. The Company charges software development costs to operations as incurred during the preliminary project stage, while capitalizing costs at the point at which the conceptual formulation, design and testing of possible software project alternatives are complete and management authorizes and commits to funding the project. The costs of internally developed software that qualify for capitalization are capitalized as fixed assets and subsequently amortized over the estimated useful life of the software, which is generally three years. The Company does not capitalize pilot projects or projects where it believes that the future economic benefits are less than probable. Leasehold improvements are amortized over the lesser of their useful lives or the terms of the underlying leases. Computers and software, as well as furniture and equipment, are depreciated over a period of three to seven years.

Management reviews fixed assets for impairment whenever events or changes in circumstances indicate the carrying amount of the assets may not be recoverable. No impairment of fixed assets occurred during the six months ended June 30, 2016.

Goodwill and Other Intangible Assets

Goodwill is not amortized; however, intangible assets that are deemed to have definite lives are amortized over their useful lives, generally ranging from 5 to 20 years.

Goodwill is tested annually for impairment in the fourth fiscal quarter and between annual tests if certain events occur indicating that the carrying amounts may be impaired. If a qualitative assessment is used and the Company determines that the fair value of a reporting unit is more likely than not (i.e., a likelihood of more than 50%) less than its carrying amount, a quantitative impairment test will be performed. If goodwill is quantitatively assessed for impairment, a two-step approach is applied. First, the Company compares the estimated fair value of the reporting unit in which the goodwill resides to its carrying value. The second step, if necessary, measures the amount of such impairment by comparing the implied fair value of goodwill to its carrying value. No impairment of goodwill occurred during the six months ended June 30, 2016.

Long-lived assets, such as intangible assets subject to amortization, are reviewed for impairment when there is evidence that events or changes in circumstances indicate that the carrying amount of an asset or asset group may not be recoverable. Recoverability of assets to be held and used is measured by comparing the carrying amount of an asset or asset group to estimated undiscounted future cash flows expected to be generated by the asset or asset group. If the carrying amount of an asset or asset group exceeds its estimated future cash flows, an impairment charge is recognized for the amount by which the carrying amount of the asset or asset group exceeds the estimated fair value of the asset or asset group. Long-lived assets to be disposed of by sale are reported at the lower of their carrying amounts or their estimated fair values less costs to sell and are not depreciated. No impairment of long-lived assets occurred during the six months ended June 30, 2016.

LPL FINANCIAL LLC
NOTES TO THE FINANCIAL STATEMENT

Commitments and Contingencies

The Company recognizes a liability with regard to loss contingencies when it believes it is probable a liability has occurred and the amount can be reasonably estimated. If a reasonable range of loss is estimable and some amount within that range of loss appears to be a better estimate than any other amount within the range, the Company accrues that amount. When no amount within the range is a better estimate than any other amount, however, the Company accrues the minimum amount in the range. The Company records legal accruals and related insurance recoveries on a gross basis.

Income Taxes

As a single member limited liability corporation, the Company is considered similar to a corporate division and recognizes an allocation of income taxes in its financial statements because it has an income tax allocation agreement (the "Tax Agreement") with LPLH and LPLFH and is included in the consolidated federal and certain state income tax returns filed by LPLFH. In accordance with the terms of the Tax Agreement, the Company shall pay to or receive from LPLH an amount equal to the total provision for income taxes that the Company discloses on its financial statements, less the amount of certain income tax benefits that are excluded from the calculation of the total provision for income taxes in accordance with GAAP. Since the Tax Agreement calls for a cash settlement based on the total income tax provision, the Company does not reflect a separate deferred income tax provision and corresponding deferred tax assets or liabilities.

The Company recognizes the tax effects of a position in the financial statements only if it is more-likely-than-not to be sustained based solely on its technical merits, otherwise no benefits of the position are recognized. The more-likely-than-not threshold must continue to be met in each reporting period to support continued recognition of a benefit. Moreover, each tax position meeting the recognition threshold is required to be measured as the largest amount that is greater than 50 percent likely to be realized upon ultimate settlement with a taxing authority that has full knowledge of all relevant information.

Recently Issued Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, *Revenue from Contracts with Customers: Topic 606* (ASU 2014-09), to supersede nearly all existing revenue recognition guidance under U.S. GAAP. In August 2015, the FASB issued ASU 2015-14, *Revenue from Contracts with Customers: Deferral of the Effective Date* (ASU 2015-14), which deferred the effective date for implementation of ASU 2014-09 by one year and is now effective for annual reporting periods beginning after December 15, 2017, with early adoption permitted but not earlier than the original effective date. In April 2016, the FASB issued ASU 2016-10, *Identifying Performance Obligations and Licensing* (ASU 2016-10), which clarifies the identification of performance obligations and licensing implementation guidance. In May 2016, the FASB issued ASU 2016-12, *Narrow-Scope Improvements and Practical Expedients* (ASU 2016-12), to improve guidance on assessing collectability, presentation of sales taxes, noncash consideration, and completed contracts and contract modifications at transition. The effective date and transition requirements in ASU 2016-10 and ASU 2016-12 are the same as the effective date and transition requirements of ASU 2015-14. The Company has not yet selected a transition method and is currently evaluating the effect that the updated standard will have on the Company's financial statements and related disclosures.

In February 2016, the FASB issued ASU 2016-02, *Leases*, which replaces the existing guidance in ASC 840, *Leases*. The new standard establishes a right-of-use model that requires a lessee to record a right-of-use asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the statement of operations. The guidance will be effective for annual reporting periods beginning after December 15, 2018, and early adoption is permitted. The Company is currently evaluating the impact that ASU 2016-02 will have on its financial statements and related disclosures.

In June 2016, the FASB issued Accounting Standards Updated (ASU) 2016-13, *Financial Instruments-Credit Losses (Topic 326)*, which requires entities to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. Entities will now use forward-looking information to better form their credit loss estimates. The ASU also requires enhanced disclosures to help financial statement users better understand significant estimates and judgments used in estimating credit losses, as well as the credit quality and underwriting standards of an entity's portfolio. The guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15,

LPL FINANCIAL LLC
NOTES TO THE FINANCIAL STATEMENT

2019. Early adoption will be permitted for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. The Company is currently in the process of evaluating the impact of the adoption on its financial statements and related disclosures.

3. Fair Value Measurements

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Inputs used to measure fair value are prioritized within a three-level fair value hierarchy. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

Level 1 — Quoted prices in active markets for identical assets or liabilities.

Level 2 — Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies, and similar techniques that use significant unobservable inputs.

There were no transfers of assets or liabilities between fair value measurement classifications during the six months ended June 30, 2016.

The Company's fair value measurements are evaluated within the fair value hierarchy, based on the nature of inputs used to determine the fair value at the measurement date. At June 30, 2016, the Company had the following financial assets and liabilities that are measured at fair value on a recurring basis:

Securities Owned and Securities Sold, But Not Yet Purchased — The Company's trading securities consist of house account model portfolios for the purpose of benchmarking the performance of its fee-based advisory platforms and temporary positions resulting from the processing of client transactions. Examples of these securities include money market funds, U.S. treasury obligations, mutual funds, certificates of deposit, and traded equity and debt securities.

The Company uses prices obtained from independent third-party pricing services to measure the fair value of its trading securities. Prices received from the pricing services are validated using various methods including comparison to prices received from additional pricing services, comparison to available quoted market prices, and review of other relevant market data including implied yields of major categories of securities. In general, these quoted prices are derived from active markets for identical assets or liabilities. When quoted prices in active markets for identical assets and liabilities are not available, the quoted prices are based on similar assets and liabilities or inputs other than the quoted prices that are observable, either directly or indirectly. For certificates of deposit and treasury securities, the Company utilizes market-based inputs, including observable market interest rates that correspond to the remaining maturities or the next interest reset dates. At June 30, 2016, the Company did not adjust prices received from the independent third-party pricing services.

Other Assets — The Company's other assets primarily consist of deferred compensation plan assets that are invested in money market and other mutual funds, which are actively traded and valued based on quoted market prices.

Accounts Payable and Accrued Liabilities — The Company's accounts payable and accrued liabilities include contingent consideration liabilities that are measured using Level 3 inputs.

The Company determines the fair value for its contingent consideration obligations using an income approach whereby the Company assesses the expected future performance of the acquired assets. The contingent payment is estimated using a discounted cash flow of the expected payment amount to calculate the fair value as of the valuation date. The Company then discounts these expected payment amounts to calculate the fair value as of the valuation date. The Company's management evaluates the underlying projections and other related factors used in determining fair value each period and makes updates when there have been significant changes in management's expectations.

LPL FINANCIAL LLC
NOTES TO THE FINANCIAL STATEMENT

The following table summarizes the Company's financial assets and financial liabilities measured at fair value on a recurring basis at June 30, 2016 (in thousands):

	Level 1	Level 2	Level 3	Total
Assets				
Securities owned — trading:				
Money market funds	\$ 333	\$ —	\$ —	\$ 333
Mutual funds	6,889	—	—	6,889
Equity securities	43	—	—	43
Debt securities	—	80	—	80
U.S. treasury obligations	3,498	—	—	3,498
Total securities owned — trading	10,763	80	—	10,843
Other assets	2,672	1,180	—	3,852
Total assets at fair value	\$ 13,435	\$ 1,260	\$ —	\$ 14,695
Liabilities				
Securities sold, but not yet purchased:				
Mutual funds	\$ 15	\$ —	\$ —	\$ 15
Equity securities	101	—	—	101
Debt securities	—	15	—	15
Total securities sold, but not yet purchased	116	15	—	131
Accounts payable and accrued liabilities	—	—	527	527
Total liabilities at fair value	\$ 116	\$ 15	\$ 527	\$ 658

Certain assets and liabilities are not measured at fair value on an ongoing basis but are subject to fair value measurement in certain circumstances, for example, when evidence of impairment exists.

4. Receivables from Product Sponsors, Broker-Dealers, and Clearing Organizations and Payables to Broker-Dealers and Clearing Organizations

At June 30, 2016, receivables from product sponsors, broker-dealers, and clearing organizations and payables to broker-dealers and clearing organizations were as follows (in thousands):

Receivables:	
Commissions receivable from product sponsors and others	\$ 112,338
Receivables from clearing organizations	75,743
Receivables from broker-dealers	5,712
Securities failed-to-deliver	5,359
Total receivables	\$ 199,152
Payables:	
Payables to clearing organizations	\$ 33,949
Payables to broker-dealers	20,068
Securities failed-to-receive	5,164
Total payables	\$ 59,181

LPL FINANCIAL LLC
NOTES TO THE FINANCIAL STATEMENT

5. Fixed Assets

The components of fixed assets at June 30, 2016 were as follows (in thousands):

Internally developed software	\$ 176,368
Computers and software	100,961
Leasehold improvements	24,507
Furniture and equipment	7,723
Construction in progress	37,282
Total fixed assets	346,841
Accumulated depreciation and amortization	(228,371)
Fixed assets, net	\$ 118,470

6. Intangible Assets

At June 30, 2016, intangible assets was as follows (dollars in thousands):

	Weighted Average Life Remaining (in years)	Gross Carrying Amount	Accumulated Amortization	Net Carrying Value
Advisor relationships	10.4	\$ 60,232	\$ (23,787)	\$ 36,445
Product sponsor relationships	10.4	31,087	(12,889)	18,198
Client relationships	8.6	12,736	(5,568)	7,168
Total		\$ 104,055	\$ (42,244)	\$ 61,811

7. Accounts Payable and Accrued Liabilities

Accounts payable and accrued liabilities were as follows at June 30, 2016 (in thousands):

Accrued compensation	\$ 44,592
Accounts payable	13,997
Deferred rent	1,101
Advisor deferred compensation plan liability	1,329
Other accrued liabilities	74,942
Total accounts payable and accrued liabilities	\$ 135,961

8. Debt

The Company maintains three uncommitted lines of credit. Two of the lines have an unspecified limit and are primarily dependent on the Company's ability to provide sufficient collateral. The third line has a \$200.0 million limit and allows for both collateralized and uncollateralized borrowings. The lines were not utilized during the six months ended June 30, 2016. In addition, LPLH provides the Company access to a credit facility. There were no funds drawn under this credit facility during the six months ended June 30, 2016.

9. Commitments and Contingencies

Leases

The Company leases certain office space and equipment under various operating leases. These leases are generally subject to scheduled base rent and maintenance cost increases, which are recognized on a straight-line basis over the period of the leases.

Service Contracts

The Company is party to certain long-term contracts for systems and services that enable back office trade processing and clearing for its product and service offerings.

LPL FINANCIAL LLC
NOTES TO THE FINANCIAL STATEMENT

Future minimum payments under leases, lease commitments, service contracts, and other contractual obligations with initial terms greater than one year as of June 30, 2016 were as follows (in thousands):

2016	\$	17,895
2017		28,071
2018		27,776
2019		9,641
2020		3,805
Thereafter		4,340
Total(1)	\$	<u>91,528</u>

(1) Includes a long-term contractual obligation with a third-party service provider to enhance the quality, speed, and cost of processes that support the Company by outsourcing certain functions. The table above includes the minimum payments due over the duration of the contract. The contractual obligation may be canceled, subject to a termination penalty that is approximately equal to the initial annual minimum payment, and which termination penalty steps down ratably through the passage of time. Future minimum payments have not been reduced by this termination penalty.

Guarantees

The Company occasionally enters into certain types of contracts that contingently require it to indemnify certain parties against third-party claims. The terms of these obligations vary and, because a maximum obligation is not explicitly stated, the Company has determined that it is not possible to make an estimate of the amount that it could be obligated to pay under such contracts.

The Company also provides guarantees to securities clearing houses and exchanges under their standard membership agreements, which require a member to guarantee the performance of other members. Under these agreements, if a member becomes unable to satisfy its obligations to the clearing houses and exchanges, all other members would be required to meet any shortfall. The Company's liability under these arrangements is not quantifiable and may exceed the cash and securities it has posted as collateral. However, the potential requirement for the Company to make payments under these agreements is remote. Accordingly, no liability has been recognized for these transactions.

Loan Commitments

From time to time, the Company makes loans to its advisors, primarily to newly recruited advisors to assist in the transition process, which may be forgivable. Due to timing differences, the Company may make commitments to issue such loans prior to actually funding them. These commitments are generally contingent upon certain events occurring, including but not limited to the advisor joining the Company. The Company had no significant unfunded commitments at June 30, 2016.

Legal & Regulatory Matters

The Company is subject to extensive regulation and supervision by U.S. federal and state agencies and various self-regulatory organizations. The Company and its advisors periodically engage with such agencies and organizations, in the context of examinations or otherwise, to respond to inquiries, informational requests, and investigations. From time to time, such engagements result in regulatory complaints or other matters, the resolution of which can include fines and other remediation costs. Assessing the probability of a loss occurring and the amount of any loss related to a legal proceeding or regulatory matter is inherently difficult. While the Company exercises significant and complex judgments to make certain estimates presented in its financial statement, there are particular uncertainties and complexities involved when assessing the potential outcomes of legal proceedings and regulatory matters. The Company's assessment process considers a variety of factors and assumptions, which may include: the procedural status of the matter and any recent developments; prior experience and the experience of others in similar matters; the size and nature of potential exposures; available defenses; the progress of fact discovery; the opinions of counsel and experts; potential opportunities for settlement and the status of any settlement discussions; as well as the potential for insurance coverage and indemnification, if available. The Company monitors these factors and assumptions for new developments and re-assesses the likelihood that a loss will occur and the estimated range or amount of loss, if those amounts can be reasonably determined. The

LPL FINANCIAL LLC
NOTES TO THE FINANCIAL STATEMENT

Company has established an accrual for those legal proceedings and regulatory matters for which a loss is both probable and the amount can be reasonably estimated, except as otherwise covered by third-party insurance or self-insurance liabilities through the Parent.

The Company maintains insurance coverage for certain legal proceedings, including those involving client claims. With respect to client claims, the estimated losses on many of the pending matters are less than the applicable deductibles of the insurance policies. The Company is also subject to extensive regulation and supervision by U.S. federal and state agencies and various self-regulatory organizations.

Other Commitments

As of June 30, 2016, the Company had approximately \$212.9 million of client margin loans that were collateralized with securities having a fair value of approximately \$298.1 million that it can re-pledge, loan, or sell. Of these securities, approximately \$34.5 million were client-owned securities pledged to the Options Clearing Corporation as collateral to secure client obligations related to options positions. As of June 30, 2016 there were no restrictions that materially limited the Company's ability to re-pledge, loan, or sell the remaining \$263.6 million of client collateral.

Trading securities on the statement of financial condition at June 30, 2016 include \$3.5 million pledged to clearing organizations.

10. Employee Benefit Plan

The Company has a 401(k) defined contribution plan. All employees meeting minimum age and length of service requirements are eligible to participate. The Company has an employer matching program whereby employer contributions are made to the 401(k) plan, and employees are eligible for matching contributions after completing one year of service. For 2016, employer contributions were made in an amount equal to 65% of the first 8% of an employee's designated deferral of their eligible compensation.

The Company participates in an employee stock purchase plan (the "ESPP"), sponsored by LPLFH, through which eligible employees are able to purchase common stock of LPLFH at a discount from the market price through payroll deductions, subject to limitations. Eligible employees may elect to participate in the ESPP only during an open enrollment period. The offering period immediately follows the open enrollment window, upon which time ESPP contributions are withheld from the participant's regular paycheck. The ESPP provides for a 15% discount on the market value of LPLFH's stock at the lower of the grant date price (first day of the offering period) and the purchase date price (last day of the offering period).

11. Related-Party Transactions

In addition to transactions discussed elsewhere in the notes to the financial statements, the Company has a variety of relationships with LPLFH and its subsidiaries under which it earns revenues for services provided and incurs expenses for services received. Unless a right of offset exists, the Company records intercompany transactions on a gross basis and amounts are classified on the statement of financial condition as due from or due to affiliates.

The Company has an intercompany service agreement to provide various infrastructure and broker-dealer support services to affiliates that are subsidiaries of LPLFH. As part of the agreement, the Company also receives client support services.

Included in the intercompany service agreement are other transactions that create additional intercompany balances. Intercompany activities for the six months ended June 30, 2016 included, but were not limited to, payables resulting from the Company's Tax Agreement with LPLH, allocated employee healthcare self-insurance costs, allocated occupancy costs, and various other business transactions with commonly controlled entities of LPLFH.

The Company also provides services and charitable contributions to the LPL Financial Foundation, an organization that provides volunteer and financial support within its local communities.

The Company has related party transactions with certain portfolio companies of TPG Capital, a 9.9% shareholder of LPLFH's common stock and a firm of which one of our directors previously served as a partner. As of June 30, 2016 there were no receivables from or payables to these portfolio companies.

LPL FINANCIAL LLC
NOTES TO THE FINANCIAL STATEMENT

12. Net Capital and Regulatory Requirements

The Company operates in a highly regulated industry. Applicable laws and regulations restrict permissible activities and investments and require compliance with various financial and customer-related regulations. The consequences of noncompliance can include substantial monetary and non-monetary sanctions. In addition, the Company is also subject to comprehensive examinations and supervision by various governmental and self-regulatory agencies. These regulatory agencies generally have broad discretion to prescribe greater limitations on the operations of a regulated entity for the protection of investors or public interest. Furthermore, where the agencies determine that such operations are unsafe or unsound, fail to comply with applicable law, or are otherwise inconsistent with the laws and regulations or with the supervisory policies, greater restrictions may be imposed.

The Company is subject to the SEC's Uniform Net Capital Rule (Rule 15c3-1 under the Exchange Act), which requires the maintenance of minimum net capital, as defined. Net capital and the related net capital requirement may fluctuate on a daily basis. The Company is a clearing broker-dealer and, as of June 30, 2016, had net capital of \$109.0 million with a minimum net capital requirement of \$6.0 million. As of June 30, 2016 LPL Financial has met all capital adequacy requirements to which it is subject.

13. Financial Instruments with Off-Balance-Sheet Credit Risk and Concentrations of Credit Risk

The Company's client securities activities are transacted on either a cash or margin basis. In margin transactions, the Company extends credit to the client, subject to various regulatory and internal margin requirements, collateralized by cash and securities in the client's account. As clients write options contracts or sell securities short, the Company may incur losses if the clients do not fulfill their obligations and the collateral in the clients' accounts is not sufficient to fully cover losses that clients may incur from these strategies. To control this risk, the Company monitors margin levels daily and clients are required to deposit additional collateral, or reduce positions, when necessary.

The Company is obligated to settle transactions with brokers and other financial institutions even if its clients fail to meet their obligation to the Company. Clients are required to complete their transactions on the settlement date, generally three business days after the trade date. If clients do not fulfill their contractual obligations, the Company may incur losses. In addition, the Company occasionally enters into certain types of contracts to fulfill its sale of when, as, and if issued securities. When, as, and if issued securities have been authorized but are contingent upon the actual issuance of the security. The Company has established procedures to reduce this risk by generally requiring that clients deposit cash or securities into their account prior to placing an order.

The Company may at times maintain inventories in equity securities on both a long and short basis that are recorded in the statement of financial condition at market value. While long inventory positions represent the Company's ownership of securities, short inventory positions represent obligations of the Company to deliver specified securities at a contracted price, which may differ from market prices prevailing at the time of completion of the transaction. Accordingly, both long and short inventory positions may result in losses or gains to the Company as market values of securities fluctuate. To mitigate the risk of losses, long and short positions are marked-to-market daily and are continuously monitored by the Company.

Statement of Financial Condition filed pursuant to Rule 17a-5(e)(3) under the Securities Exchange Act of 1934 is available for inspection at the principal office of the Company and at the Boston Regional Office of the Commission.
